FISHERIES

PLACE	HUMPS	DOGS	REDS	STREAM MOUTH	TOTAL
BETWEEN TROCA DERO BAY AND PORT ST. NICHOLAS..... # 1		362			362
# 2	150	20			170
Port St. Nicholas	2500	2000			4500
Klawak Stream	15000	200			15200
" Lake	3000				3000
Nossuk Bay	850				850
Stainey Creek	?	?			?
Naukati Bay	"	"			"
Sarkar Cove			8000		8000
GRAND TOTAL...					140,871

In the total for Sarkar Cove I did not include the figures for the number of humps and cohoes that had ascended the stream. These figures the stream-watchman was unable to give, but stated there had been a total escapement of 35,000, all species except dogs and kings. In deducting the estimated number of reds, 8000, this would leave a total of 27,000 of humps and cohoes, and if these figures be included to the grand total a new total would be thus attained namely, 167,871.
